## Aims and Scope

*Research and Practice in Thrombosis and Haemostasis* (RPTH) is the newest journal of the International Society on Thrombosis and Haemostasis (ISTH) and the newest journal in the field of thrombosis and hemostasis. Complementing its flagship journal, the *Journal of Thrombosis and Haemostasis* (JTH), RPTH provides a dedicated Open Access home for science and discourse among researchers, clinicians, nurses, allied health professionals, and patients.

RPTH is a "living journal" and serves as a jumping point for digital discussion. It also reflects the current era of inter-disciplinary scientific discovery and new methods of knowledge dissemination and the wide reach of ISTH by featuring articles from all corners of the globe. RPTH provides rigorous, rapid peer review and immediate dissemination of research reports from basic, clinical, translational and population or public health science. The Journal is interested in quality, outcomes, dissemination and implementation science, seeking studies and trials on novel care delivery, including in areas of resource constraint around the world.

Digital discussion is encouraged through the dedicated Twitter account: @RPTHJournal and can be found with the hashtag #RPTH

## Open Access and Copyright

All articles published by *Research and Practice in Thrombosis and Haemostasis* are fully open access: immediately freely available to read, download, and share. All *Research and Practice in Thrombosis and Haemostasis* articles are published under the terms of the Creative Commons Attribution-NonCommercial-No Derivs license ("CC-BY-NC-ND"), which permits users to copy, distribute, and transmit an article as long as the author is attributed, the article is not used for commercial purposes, and the work is not modified or adapted in any way. An exception is made for Contributors funded by agencies requiring use of a Creative Commons Attribution license ("CC-BY") which permits others to use, distribute, reproduce, remix, tweak, and build upon the work in any medium (even commercially) as long as the Contribution is credited for the original creation. Such funders include the Research Councils UK, the Wellcome Trust and other funders recognized by the Publisher as requiring a CC-BY license, who may publish their Contributions under a CC-BY license.

Copyright on any research article published by *Research and Practice in Thrombosis and Haemostasis* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher.

Further information about open access license and copyright can be found at: <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright--License.html>.

## Contact Details

*Research and Practice in Thrombosis and Haemostasis* is published by Wiley Periodicals, Inc., 101 Station Landing, Suite 300, Medford, MA 02155, USA.

Editorial Correspondence/Information for Authors: [rpth@jeditorial.com](mailto:rpth@jeditorial.com)

Production Editor: Kate Noe (email: [rpth@wiley.com](mailto:rpth@wiley.com))

# Research and Practice in Thrombosis and Haemostasis

Volume 3 • Issue 1 • January 2019

## Commentaries

- 6 Nutrition and venous thrombosis: An exercise in thinking about survivor bias  
*Willem M. Lijfering and Suzanne C. Cannegieter*
- 9 Fondaparinux in heparin-induced thrombocytopenia: A decade's worth of clinical experience  
*Marc Schindewolf*
- 12 Prehospital fresh frozen plasma: Universal life saver or treatment in search of a target population?  
*Michael Makris and Alfonso Iorio*

## Forum

- 15 Malignant benign hematology  
*Michelle Sholzberg*

## Illustrated Review Article

- 18 Polyphosphate in thrombosis, hemostasis, and inflammation  
*Catherine J. Baker, Stephanie A. Smith, and James H. Morrissey*

## Review Articles

- 26 Thrombotic thrombocytopenic purpura: Toward targeted therapy and precision medicine  
*Paul Coppo, Adam Cuker, and James N. George*
- 38 Hereditary angioedema: Linking complement regulation to the coagulation system  
*Marcel Levi, Danny M. Cohn, and Sacha Zeerleder*

## Tutorial

- 44 Measurement of tissue factor activity in extracellular vesicles from human plasma samples  
*Yohei Hisada and Nigel Mackman*

## Methodological Article

- 49 Circulating endothelial cells as biomarker for cardiovascular diseases  
*Maura Farinacci, Thomas Krahn, Wilfried Dinh, Hans-Dieter Volk, Hans-Dirk Düngen, Josephine Wagner, Timo Konen, and Oliver von Ahsen*

## Original Articles: Thrombosis

- 59 Dietary intake of marine n-3 polyunsaturated fatty acids and future risk of venous thromboembolism  
*Trond Isaksen, Line H. Evensen, Stein Harald Johnsen, Bjarne K. Jacobsen, Kristian Hindberg, Sigrid K. Brækkan, and John-Bjarne Hansen*
- 70 May-Thurner syndrome and thrombosis: A systematic review of antithrombotic use after endovascular stent placement  
*Leslie J. Padrnos and David Garcia*
- 79 Barriers to integrating direct oral anticoagulants into anticoagulation clinic care: A mixed-methods study  
*Geoffrey D. Barnes, Jennifer Acosta, Christopher Graves, Eric Puroll, Eva Kline-Rogers, Xiaokui Gu, Kevin Townsend, Ellen McMahon, Terri Craig, and James B. Froehlich*
- 85 The effect of stopping phenprocoumon 5 days preoperatively: A retrospective study  
*Silke Knol, Mascha Mallo, Reinier Tromp Meesters, Jan Westerink, and Marcel van de Ree*

- 89 Thrombin generation in newly diagnosed multiple myeloma during the first three cycles of treatment: An observational cohort study  
*Emilie Chalayer, Brigitte Tardy-Poncet, Lionel Karlin, Céline Chapelle, Aurélie Montmartin, Michèle Piot, Denis Guyotat, Philippe Collet, Thomas Lecompte, and Bernard Tardy*

#### **Original Articles: Haemostasis**

- 99 Education needs of nurses in thrombosis and hemostasis: An international, mixed-methods study  
*Patrice Lazure, James Munn, Sara Labbé, Suzanne Murray, Regina Butler, Kate Khair, Angela Lambing, Maura Malone, Thomas Reiser, and Fiona Newall*
- 109 Extending recombinant factor IX Fc fusion protein dosing interval to 14 or more days in patients with hemophilia B  
*Amy D. Shapiro, K. John Pasi, Margareth C. Ozelo, Roshni Kulkarni, Christopher Barnowski, Bent Winding, Johan Szamosi, and Stefan Lethagen*
- 114 Reagent-specific underestimation of turoctocog alfa pegol (N8-GP) clotting activity owing to decelerated activation by thrombin  
*Egon Persson, Tina Foscolo, and Martin Hansen*
- 121 Circulating microvesicles in snakebite patients with microangiopathy  
*Anoop K. Enjeti, Lisa F. Lincz, Michael Seldon, and Geoffrey K. Isbister*
- 126 Evaluation of von Willebrand factor concentrates by platelet adhesion to collagen using an in vitro flow assay  
*Anne Riddell, Saravanan Vinayagam, Keith Gomez, Mike Laffan, and Tom McKinnon*

#### **Letter to the Editor**

- 136 Overcoming barriers to integrating direct oral anticoagulants into existing anticoagulation management services  
*Katelyn W. Sylvester and Jean M. Connors*
